Imprint: Eye On Education

PRAISE FOR THE BOOK:

"The BIST philosophy has greatly impacted how our school, as a whole, operates on a daily basis. Staff are confident in viewing behavior as a missing skill, and our students benefit most of all as they are being approached with grace and accountability. Students are provided with tools to best help them learn and cope with their emotions and behaviors, while at the same time, the learning environment is protected. The BIST philosophy improves staff collaboration and cohesiveness as everyone has a role and responsibility for ensuring a positive and safe learning environment for all."

—Greg Fairchild, Principal of Banner Elementary School, IL

Cultivating Behavioral Change in K–12 Students

Team-Based Intervention and Support Strategies

Cultivating Behavioral Change in K-12 Students

provides in-service educators with a long-term, team-based approach to enhancing their interventions and supports for struggling students. Comprehensive and compassionate, these evidence-based practices target the sustainable transformation of young learners' behavior and help to shift the mindsets of the adults working with them. Principals, administrators, mental health practitioners, and teacher-leaders will be better prepared and motivated to collaborate toward student behavioral change, foster productive relationships with children and families, encourage learners to hone skills specific to behavior management, and more.

Marty Huitt is Director of the Behavior Intervention Support Team (BIST) at Cornerstones of Care, a trauma-informed behavioral healthcare nonprofit that partners with communities to improve the safety and health of children and families in Kansas, Missouri, and beyond.

Gail Tolbert, a former principal and teacher, is an educational consultant who specializes in school improvement.
